There are simpler ways to protect your PC

iBurst PC Security Suite product is now powered by Kaspersky Internet Security 2009! This is one of the top internet security suites on the market. Kaspersky has received top global awards such as the 5 Star Award from PC World and PC Security Labs!

KASPERSKY lab

NOTES:

- Data carried over to the following month will be limited to the monthly data allocation for which the Subscriber has signed up, and/or the amount of any Bandwidth Booster purchased by the Subscriber in that month.
- All of the iBurst ADSL packages are automatically activated with Pay-per-use. Pay-per-use data will be billed in 1 megabyte increments rounded up to the next megabyte. Opting out of Pay-per-use on an iBurst ADSL package means that upon reaching the data limit/cap for the month, the Subscriber's service will be capped. No throttling is available on ADSL packages. Where a Subscriber is capped, the Subscriber will be required to top up with a Bandwidth Booster in order to continue normal service. No Pay-per-use opt out is available on FreeFlo packages.
- A complete fax rates schedule can be viewed at www.iburst.co.za.
- Insurance options covering hardware are not available on ADSL.
- The monthly fee includes free calls to other iCall Subscribers. A complete rates schedule can be viewed at www.iburst.co.za.
- The Subscriber must comply with RICA requirements, please contact us on 0877 20 20 20 if you have not complied. The Subscriber is hereby advised that he/she/it will be personally liable for not complying.
 - Data transfer rates are not guaranteed and are dependent on network availability and utilisation.
 - All prices include VAT.
 - All prices effective 1 October 2009 to 30 November 2009 and subject to stock availability.
 - Standard Terms and conditions available on www.iburst.co.za apply. Errors and omissions excepted.
